Blooming
SEASON

Blooming SEASON

Dokumaci brand of **Persan** once again comes up with a contemporary collection designed for elegant and stylish interiors and offers a variety of timeless and naturally classy fabrics under the name **Blooming Season**.

Inspired by the awakening of earth in spring and the miraculous change taking place in nature, floral embroideries and jacquards along with upholstery fabrics featuring special mélangé yarns, pay tribute to the spectacular beauty and diversity of nature.

As the natural textures and matt finishes are the key characteristics of **Blooming Season**, one significant cotton fabric designed for curtains stands out with its beautiful cherry blossom motifs. The decorative fabrics with botanical designs in **Blooming Season** are accompanied with modern geometric designs, plains in strong colours and cotton bouclé weaves. Offering also refined embroideries and semi transparent linen blend weaves, the relaxed and soft finishes of fabrics support and add character to the natural look of the collection.

The colour palette of **Blooming Season** takes its inspiration from the nature and the awakening of spring; celadon, pollen yellow, sand and earth tones, Aegean blue and peach tones are the key colours of the collection.

Visit our showrooms and discover more about the versatile combinations of wide range of textures and designs that **Blooming Season** has to offer.
