# MARKIZ

Persan's new collection Markiz, offering drapery fabrics only, is an avant-garde collection with a touch of art deco. Elegant in its royal style, Markiz is also highly feminine with its glittering surfaces.

Satin bases and shiny surfaces are on the forefront of the collection; flowing fabrics, inviting to the touch, with sharp-edged patterns create a contradiction and a striking effect.

Petal-like design is the main design in the Markiz Collection. The interlocking subtle damask and the circular pattern in oxidized metal effect are two other outstanding fabrics of the collection.

Small geometric patterns and gilded plains with distressed effect complement these powerful patterns.

Colours such as ecru/beige tones, bitter brown/earth tones light blue are used while, smoke/dark gray and navy blue/copper tone combinations stand out in the collection. Gently coordinating with these colours; copper, gold and silver metallic effects are the essential characteristics of Markiz.
