PERSONA

HOME STUDIO

metropolitan

Inspired by modern city style, Metropolitan is the latest urban collection from Persan reflecting the spirit of modern times with unique designs and luxurious textures.

A variety of beautiful textures like satin, chenille and velvet are brought together in Metropolitan, where linear and masculine patterns define the essence of the collection.

The strongest elements of Metropolitan are the viscose chenille upholstery fabrics featuring deep and bold colours, created using a special viscose warp.

A beautiful satin weave with a delicate sheen effect and silky texture brings a touch of luxury along with other gently shimmering drapery fabrics that are in perfect harmony with the rest of the collection.
